

Platom

**The Core Team
of Nuclear Experts**

P L A T O M

**We master the
Nuclear specific
requirements.**

PLATOM

20+ years
50+ experts
550+ projects
in the Nuclear Industry

P L A T O M

1998-

Mikkeli (HQ), Helsinki,
Rauma, Eurajoki, Turku,
Tampere

Miika Puukko, CEO

Our Services

- Licensing & Qualification
- Nuclear Project Management
- Nuclear Specific Training Services
- Nuclear Engineering
- System Deliveries

PLATOM

Licensing & Qualification

Our leading expertise helps our customers to overcome their Licensing and Qualification related challenges in a timely and cost-effective manner.

- Management of Nuclear Specific Procedures
- Technical Support for Licensing & Qualification
- Safety Analyses & Independent Reviews
- Management of Project Specific Licensing

P L A T O M

Nuclear Project Management

With our professional project managers and multidisciplinary engineering services, you can focus on your core competences and rest assured that your Nuclear Project is handled in a professional manner – On time & On budget.

- Production of licensing documentation
- Nuclear specific requirements and requirement management
- Authority documentation, tasks and approvals management
- Supply chain management
- Approval procedures of inspection and testing bodies and third parties

P L A T O M

Nuclear Specific Training Services

- Nuclear Regulatory Training (including YVL-guides)
- Quality Systems
- Safety Culture
- Radiation Safety

PLATOM

Nuclear Engineering

Nuclear Engineering expertise in a variety of disciplines, with experiences from both Finnish and Swedish NPPs. We support our customers in operating and developing their core assets. Some of our topics:

- Process modelling
- Ageing management
- Radioactive waste management
- Radiation safety
- System engineering
- Safety engineering
- Mechanical, electrical and I&C disciplines

PLATOM

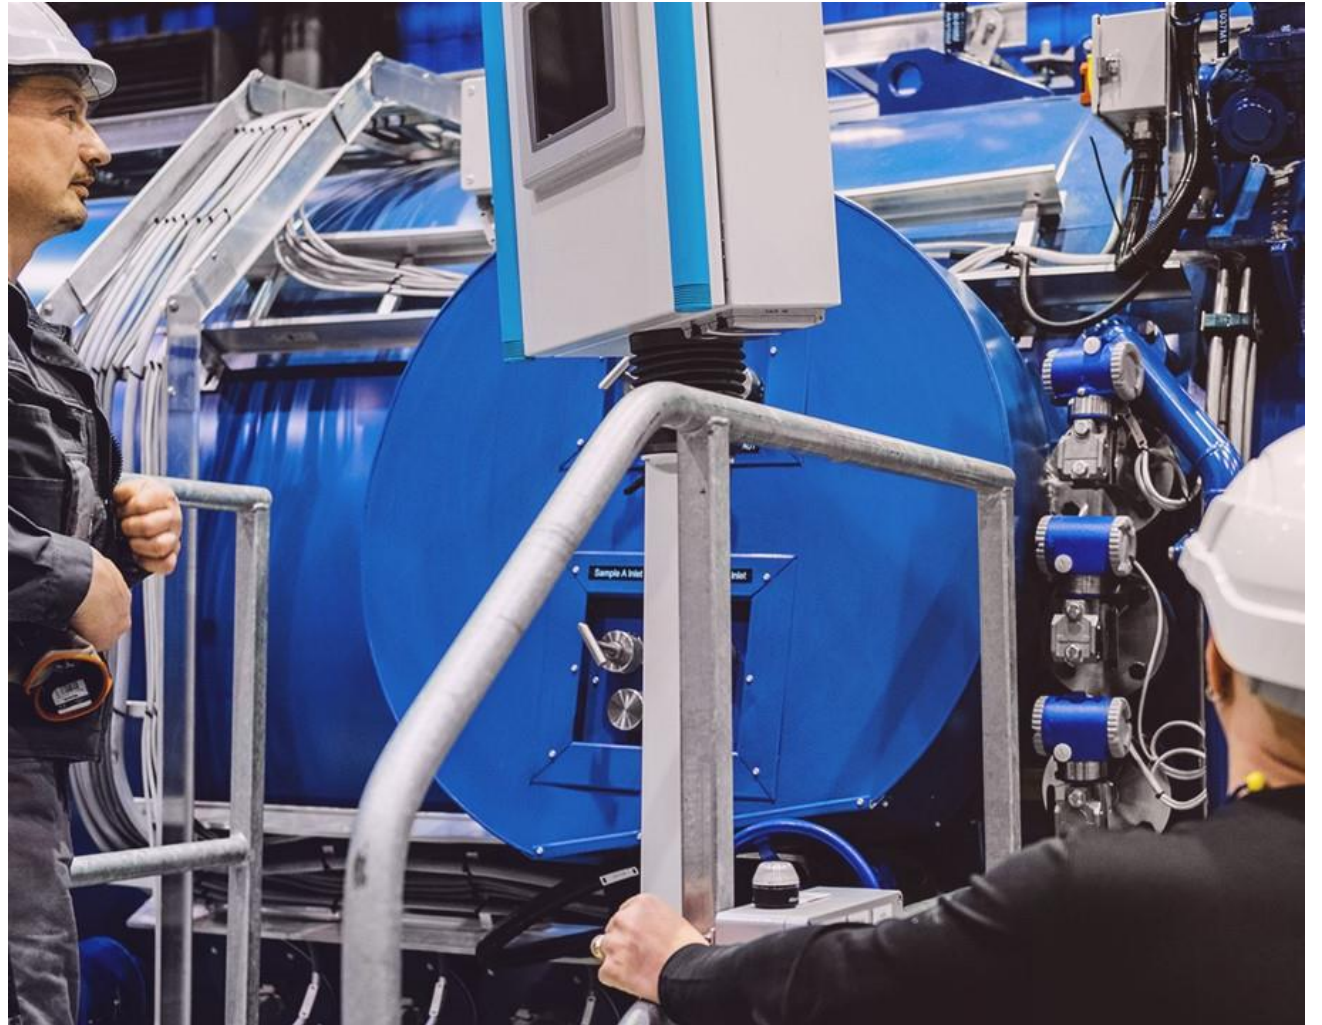

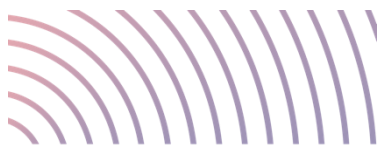

System Deliveries

Tailor-made equipment and system deliveries for nuclear industry

- Fuel handling: transfer, hoisting, transportation and monitoring
- Radioactive waste handling: solid and liquid waste collection, sorting, convey, packing and receiving
- Decontamination
- Sampling: primary and secondary circulation sampling
- Uranium hexafluoride sampling, transfer and feeding solutions

PLATOM

Experienced Flexible Independent

Customer satisfaction 4,9/5 (2019)
